## Digital Artwork LED Canvas

## Luma Canvas Player

Immediately more vivid than the highest caliber of TV displays, Luma Canvas boasts resilient LED technology designed to operate 24/7. Unlike traditional LCD monitors, the matte surface of Luma Canvas avoids reflections and maintains deep blacks while the screen's emissive technology allows for superior contrast and brightness. Bringing artwork to life through the widest color gamut available and an unparalleled 160-degree viewing angle, Luma Canvas delivers a viewing experience unlike any other. Encountering art on Luma Canvas is like experiencing the work for the first time.
